Do you know all of the right questions to ask when screening a client for an immigration benefit?

This CLE, presented by Attorney Chris Christensen, covers many immigration law basics. Specifically, the CLE will help you most efficiently and effectively screen your clients for all possible forms of relief from removal and for eligibility for affirmative applications.

PILN is a group of private immigration lawyers, law students, law clerks, and organizations whose goal is to provide no-cost representation to low income non-citizens facing deportation.

Free to participants who pledge to accept a pro bono immigration case through the Network or pledge to screen at a PILN clinic in Boise in 2012. If you have already joined the Network's efforts by pledging to take a case, **registration is still required.**
