

Litigation Section

Donation Policy

Overview

During most years, the Litigation Section budgets funds to be donated to worthy organizations. The amount of this appropriation varies by year based upon the other obligations and undertakings of the Section. Generally, requests are received in January and February each year, and the Section approves donations in April or May. These donations typically exhaust the funds budgeted for that fiscal year. Donation requests made outside this timeline may be considered at the discretion of the Section leadership.

Guidelines

The Section's donations should be related to the purposes for which the Section exists. Donations should accomplish one or more of the following goals:

- Enhance the professionalism, ethics and diversity of the legal profession.
- Support CLEs and law related programs and activities for the Idaho State Bar membership and/or the public to improve the practice of law, especially the practice of litigation.
- Increase the access to the courts, and free or low-cost legal services.
