

ADMINISTRATIVE MEMORANDUMS INDEX

As of January 21, 2016

Please note that these Administrative Memorandums will include many memos that have become outdated due to changes in rules, statutes or current Department policy. Some memos have been amended or superseded by others, and some may no longer be applicable.

CORPS OF ENGINEERS

No.	Title	Signed	Amended or Superseded
1.	Corps of Engineers Section 10 Permits	10-6-75	

ADMINISTRATIVE POLICY

MEMO

TO: Districts
FROM: Ken Dunn
DATE: October 6, 1975
SUBJECT: CORPS OF ENGINEERS SECTION 10 PERMITS

The Department of Water Resources is responsible for coordinating the State of Idaho's comments on all Section 10 permits. Public Notices are sent by the Corps to all interested agencies, and state agencies reply to us with their comments. Official state replies will be written here in Boise and signed by me.

Copies of all public notices will be sent to appropriate district offices (see attached examples). If you have any comments, please reply as soon as possible to the Engineering Bureau so that a reply can be formulated well ahead of the deadline. No reply is necessary if you have no comment.

Please remember that Public Notice of a Section 10 Application is considered equivalent to a Stream Alteration Application where necessary and no additional application by us will be required. We can, however, request additional information if necessary.
