

Required Designation of Email Address for Electronic Service

The Idaho Judiciary is transitioning to iCourt, which includes a modernized electronic case management and e-filing system. To streamline electronic service between parties and Idaho courts, the Idaho Supreme Court is requiring all active members of the Idaho State Bar to designate a single email address for electronic service by December 5, 2016, by going to the Idaho State Bar website at https://isb.idaho.gov/licensing/eservice_update.html. As of January 1, 2017, this will be the email used for service by the court. This email will also be available for service between parties in the e-filing system. For more information please see the listed webpage.
