

Help Shape the Future of Idaho's Courtrooms

As the legal and technological landscape continues to evolve, the Idaho Supreme Court's Making the Record Workgroup seeks to understand the preferences and opinions of attorneys and judges regarding whether certain types of hearings should be presumptively in-person or presumptively remote.

This Monday, August 21st, we will be inviting you to participate in a brief survey on your views regarding which hearings should be held in-person or remotely; please watch for a survey link in your inbox. The information you provide will be used to identify common views on remote hearings and help guide potential rule amendments.

You will have until Friday, September 1st to respond to the survey.

Thank you for your help with this important work!
