When the Tax Cuts and Jobs Act was signed into law in 2017, an important new investment tool was created, offering powerful federal income tax incentives for investors to provide capital to operating businesses and for real estate development – called Opportunity Zones. Idaho has 28 approved census tract Opportunity Zones throughout the state where capital can be deployed through newly formed entities called Opportunity Funds to take advantage of this incentive. Recently, Treasury and the Internal Revenue Service issued a first tranche of long-anticipated proposed regulations, with more crucial guidance expected in the next month. This program will provide an overview of the Opportunity Zone incentive as well as an analysis of what you need to know about the recently issued regulations. Topics will include: The three tax incentive benefits of Opportunity Zones; How to structure Opportunity Zone transactions; Opportunity Zone time lines, requirements and compliance issues; Attributes of Opportunity Zone businesses; and Interpretation of existing guidance and anticipation of what's to come.
